

Incident handler's journal

Instructions

As you continue through this course, you may use this template to record your findings after completing an activity or to take notes on what you've learned about a specific tool or concept. You can also use this journal as a way to log the key takeaways about the different cybersecurity tools or concepts you encounter in this course.

Date: 10/05/2024	Entry: 1
Description	Documentation regarding the organization's recent ransomware attack.
Tool(s) used	N/A
The 5 W's	<ul style="list-style-type: none">• An organized group of unethical hackers caused the incident by sending a phishing email.• The clinic experienced a ransomware attack after a malicious attachment from the email was downloaded, leading to the encryption of their computer files.• The incident occurred on Tuesday at 9:00 a.m.• The incident took place at a small health care clinic in the U.S.• The incident happened because the clinic fell victim to a phishing attack, allowing the hackers to deploy ransomware and demand a ransom for file decryption.
Additional notes	I
